

Sample Document for PDF Translation

This is a minimal test PDF with English text.

PDF (Portable Document Format) is a file format developed by Adobe in 1993.

It was created to present documents consistently across platforms.

PDF files can contain text, images, vector graphics, and annotations.

This sample file is used to test the pdf-translation tool.

Features tested:

- Text extraction and translation
- Format preservation
- Bilingual output generation

Thank you for using pdf-translation!
